PAPER PATTERN TIP

Two copies of the paper pattern are provided with this design.

One pattern sheet is printed on cardstock - use this pattern to cut glass parts. To cut this pattern apart, cut away the printed lines between the individual pieces.

The second pattern sheet is printed on paper - DO NOT CUT THIS PAGE APART - Use this pattern to lay out the cut glass parts. Use the pattern as a glass easel to assist in glass color selection. Lay clear window glass on the pattern, then the glass parts can be viewed over a light source.

Make copies of this picture to try different color combinations for your lamp. Use the paper pattern for glass piece description.
